

Are you confused about how to use our products? Our professional skin care consultant clears it up with the AdvanSkin Daily Regimen:

- ✓ Cleanser: (AHA or Foaming)
- ✓ Under Eye & Neck Cream
- ✓ Hyaluronic Acid Serum
- ✓ DermCorrect Serum
- ✓ Foaming Cleanser
- ✓ Under Eye & Neck Cream

Detailed Regimen:

Step 1-Cleanse/ Exfoliate.

Product: AHA Cleanser or Foaming Cleanser

“Exfoliation is key. Physical scrubs with small particulates are often irritating to the skin. I like to use a cleanser that contains Alpha Hydroxy Acid to start the day. AHA is safe for daily use and gently dissolves flaky skin promoting cell turnover and revealing a younger looking layer.”

“If the AHA Cleanser is too drying for your skin type, use the Advanskin Foaming Cleanser- A potent blend of French sea waters, botanical extracts, gentle seaweed and sugar based exfoliants that cleanse without stripping the essential lipids the skin needs to stay healthy and hydrated.

Step 2-Treat Eye Area.

Product: Under Eye & Neck Cream

“For the delicate eye are, you want to use the Advanskin Under Eye cream. The power peptides and essential vitamins in the cream work together to moisturize, encourage collagen production, reduce puffiness and fade dark circles.”

Step 3-Extra Moisture.

Product: Hyaluronic Acid Serum

“Dry skin can be the result of many factors: changing hormonal levels as we age, dry climates or changing weather. To encourage hydration and retain moisture, use

Advanskin HA Serum. Hyaluronic Acid is a super moisturizing ingredient that not only attracts moisture to the skin, but retains it, as well. This helps even skin tone, smooth fine lines and protect against environmental conditions.

Step 4-Apply an Anti-Aging Serum.

Product: DermCorrect Serum

“Over time free-radical damage from the sun and environmental pollutants depletes your reserve of collagen and elastin. Aging and the waning levels of estrogen also slow collagen production in women. To combat this, you need the anti-oxidant rich DermCorrect serum. It contains 12 active ingredients that not only encourage collagen production but also improve the appearance of fine lines and wrinkles and fade discolorations –also known as age spots.”

*If you only have time
for one product-
DermCorrect Serum
is the one to use!*

Use the DermCorrect serum on both face and neck to maximize results.

Step 5- Cleanse.

Product: Foaming Cleanser

“At the end of the day, you want to use the Advanskin Foaming Cleanser, a gentle cleanser that removes dirt, excess oil and make-up.”

Step 6- Night Cream:

Product: Under Eye & Neck Cream

“Finally, you should apply a super-hydrating cream loaded with seed and plant oils that replace the skin’s natural oils overnight. Use Advanskin Under eye and Neck Cream which contains vitamins, plant oils and peptides that work to rejuvenate skin and produce collagen.”
